

**For Immediate Release**

## Mistral and ELMA partner to offer Electronics Packaging solutions to Indian embedded systems market

**Bangalore, August, 2008** – Mistral Solutions Pvt. Ltd., a leading provider of complete technology solutions and professional services in the embedded space, has entered into a partnership with ELMA Electronic, leading designer and manufacturer of electronics packaging systems.

The company provides standard to fully customized components such as modular enclosures, cabinets and backplanes. Elma's modular approach allows fast, cost-effective, and proven performance for customized design modifications to standard platforms. The base products are centered around 19" and 23" Eurocard specifications, with creative design innovations for VME/ VME64x, CompactPCI/2.16, VPX, VXI/PXI, AdvancedTCA/MicroTCA and other architectures. The company's design expertise allows fast implementation of full custom designs for backplanes, sub-racks, enclosures and cabinets.

These solutions will enable Mistral to offer its customers standard, modified and custom electronic enclosures that house and protect sensitive electronics and electrical components in a range of markets, including defense, telecommunications, medical, and industrial automation.

"Mistral's prowess in integrating a diverse range of pre-configured components and off-the-shelf products with our custom engineered solutions has helped us emerge as a key embedded solutions provider across varied industry segments. Our tie up with ELMA, the world-leading brand of enclosure products makes us well positioned to address the electronic packaging and enclosure needs of the Indian embedded systems market." said Ramanan J.V, Assistant General Manager – SED, Mistral Solutions Pvt. Ltd.

### **About Elma Electronic**

Elma Electronic Inc. is a leading manufacturer and supplier of enclosures, backplanes, cabinets, cases, and "ready-to-run" packaging for ATCA, CPCI, MicroTCA, Rugged COTS, VME/64x, VPX, and custom bus structures. Elma's component product line offers a wide selection of top quality switches knobs and LED arrays. The company has been a worldwide supplier of dependable, high performance products for over 35 years. Elma operates three facilities in the continental United States plus has locations in Switzerland, Germany, France, the United Kingdom and Israel.
